

Working Prototype Known Problems Report

Product Name: KITT

Team name: The KITT Kats

December 1st, 2019

List of functions not working correctly (can lose up to 20 points) List all problems with your software that your team has identified. Include in the item entry the input/action that causes failure; location of fault (if known); possible action for removal of fault. You will not lose points for items on the list; you will lose points for failing to put items on the list if your TA or the prof finds a problem during the acceptance test.

Known Problems:

1. In Calendar Fragment:

a. Some icons are off by one day

- i. input/action that causes failure: going to calendar tab and checking month of the foods from the card view
- ii. location of fault (if known): in onCreateView method of calendar fragment, the calculation of days between current day and day food is expiring
- iii. possible action for removal of fault: change method of creating icons in calendar instances

2. In Main Activity:

a. Wrong icon on bottom nav bar highlighted when reopening app after closing

- i. input/action that causes failure: closing app and reopening it
- ii. location of fault (if known): maybe in onNavigationItemSelectedListener for which fragments are selected
- iii. possible action for removal of fault: do more research online to find solution

3. In Notifications:

List of suggested user stories/acceptance criteria for actual acceptance test:
