

# Working Prototype Known Problems Report

Product Name: KITT

Team name: The KITT Kats

December 1st, 2019

**List of functions not working correctly** (can lose up to 20 points) List all problems with your software that your team has identified. Include in the item entry the input/action that causes failure; location of fault (if known); possible action for removal of fault. You will not lose points for items on the list; you will lose points for failing to put items on the list if your TA or the prof finds a problem during the acceptance test.

- **User Story 8:** As a user I want the app to determine when my food will expire depending on storage conditions (refrigerated, frozen, cooked), so that I can have a more accurate expiration date.

**NOT IMPLEMENTED**

- **User Story #9:** As a user, I want the app to suggest a food as I'm typing it in so that I don't have to type the whole thing thus providing a better user experience.

**NOT \*FULLY\* IMPLEMENTED**

- **User Story #15:** As a user, I want to be able to scan items through a barcode, so that I do not have to manually input names.

**NOT \*YET\* IMPLEMENTED**

- **User Story 5 Sprint 3 & 4:** As a user, when I input a food item I want it to autofill the expiration date with the option to manually adjust it so that I don't have to constantly look up expiration dates for my food.

**NOT \*FULLY\* IMPLEMENTED**

- **User Story 6 Sprint 4:** As a user, I want to sign in with Google so that my data is saved

**NOT \*YET\* IMPLEMENTED**
